- Note: 1. Ensure WiFi network is on before connecting device.
2. The WiFi uses 2.4GHz waveband and works best with a strong and stable WiFi signal.
3. If WiFi connection fails, restart WiFi router and repeat steps 1 & 2.

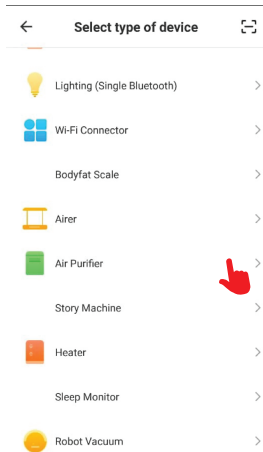

Step 1 Turn on WiFi and connect to Internet.

Step 2 Open Töush App and click "+" icon at the top right corner to add device.

Step 3 Search for 'Air purifier'.

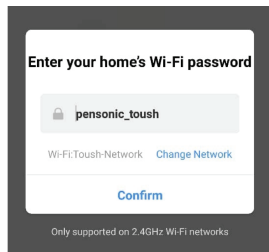

Step 4 Switch on device. Long press 'WiFi' icon for 10 seconds. You will hear a beeping sound.

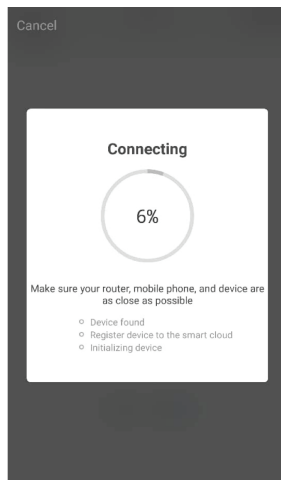

Step 5 Click 'Finish network configuration'.

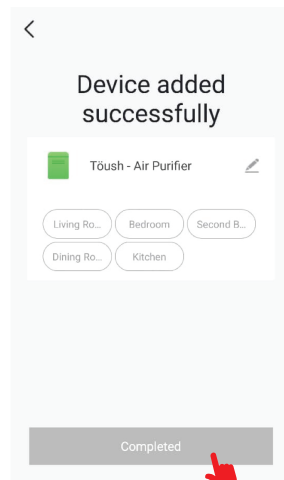

Step 6 Enter current WiFi password.

Step 7 Wait for WiFi to complete connection with device.

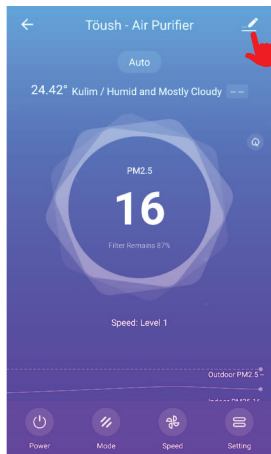

Step 8 If connection is complete, 'Device Added Successfully' message appears. If unsuccessful, repeat steps 1 to 8.

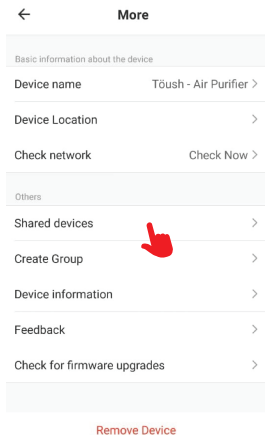

Note: Töush App must be installed before device can be shared.

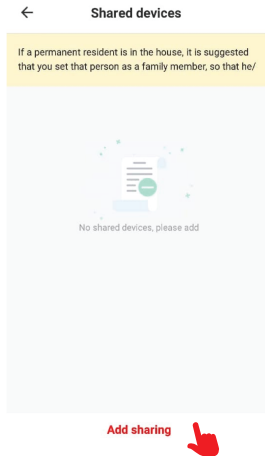

Step 1 Click 'Settings' icon at the top right corner of Töush App home screen.

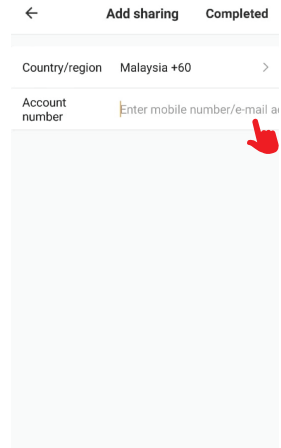

Step 2 Click 'Share devices'.

Step 3 Click on 'Add' option.

Step 4 Enter another phone number or email address.
