AUTOMATION
IS LIFE

Enjoy Secure,
Keyless
Convenience

Toush Smart Door Lock

No need to carry keys around only to forget and leave them behind. Now, you can have the carefree convenience of a keyless, secure access with Tough Smart Door Lock. Take your pick from 5 different modes to open and close your door.

You can either use password, smart card, fingerprint, remote control or key to provide or revoke access instantly. Decide who gets access and when, and receive auto activity updates via your smart device.

Create unique password for each user, provide different access duration or choose different access method for each family member and guest.

5 different modes to programme your Smart Door

FINGERPRINT

PASSWORD

CARD

KEY

MOBILE REMOTE

Secure and customised keyless convenience to open doors

Key are also provided if you prefer the usual access

Use password to allow access to family or limited access for guests

You can use smart card to provide access to specific people

Tough Fingerprint sensor uses advanced high-resolution images of fingerprint in 360-degree orientation and groups each fingerprint into precise categories.

Automatic Locking

Sometimes with the busy hustle and bustle of life, you may forget whether you have locked your door or not. With Touch Smart Door Lock, you have one less thing to worry about. Your Touch Smart Door Lock will lock your door automatically within 5 seconds after unlocking using Touch App.

Stay on Top of Things

Takes the guesswork out of whether your kids are back from school, if your guests have arrived, has the maid come to clean the house, or whether there is an intruder with real time notifications.

Keep Intruders at Bay

Anti-intrusion alarm will immediately alert you if there is unusual access especially unauthorised entries.

Deadlock Function

Here's a powerful function. You can lock manually using this lock function, but the door cannot be opened using any mode.

*Support visual password max 20 digits

123456

or

123456

Anti-peep Protection Password

Stop strangers from finding out your password with this anti-peep protection password function. Type in random numbers, followed the actual password in sequence, and then random numbers again. The door will open as long as the correct password is typed in sequence. No one will know what is the actual password. Supports up to maximum of 20 numbers.

Away From Home Control

Assign control to another person by entering '4' and '#' on Tough Smart Door Lock. Notification will be sent to the other person and complete access will be given to him/her.

Töush

Remote Control Door Opening

Pair Tough Smart Door Lock with Tough App and grant access to open door via Tough App. Open the Tough Smart Door Lock remotely using Tough App.

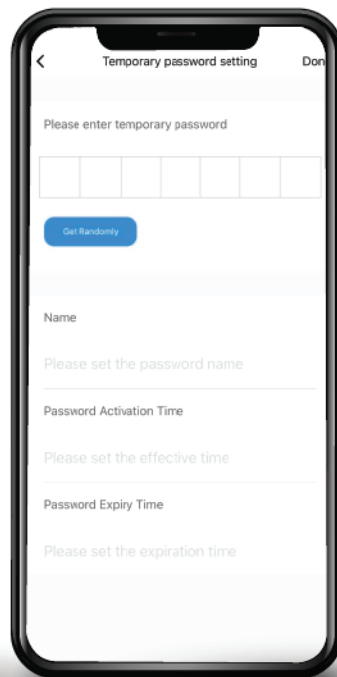

Limited Period Access

Unexpected guests but you're away from home? Why not give a single use password? Tough App will generate a Dynamic password that is valid for only 5 minutes. This password can be sent remotely via smart device.

Hi, I am outside your door now.

Smarter Renting & Hosting

Tough Smart Door Lock makes renting out rooms and hosting a breeze. Connect your Tough Smart Door Lock with Tough App and send your renters an auto generated code that expires on checkout. You can even revoke their passcodes whenever you need to.

Hijack SOS Alert!

In the event a thief is forcing you to open the door, you have no choice but to comply, but once you use the special hijack password or finger print, your family will immediately receive notification from Tough App to alert them you are in danger and need help.

Automation Scenarios

Create automation scenarios with Tough Smart Door Lock and Tough Smart Switches. As soon as a Tough Smart Door Lock is opened, the Tough Smart Switch automatically turns on the light to illuminate your living space.

Long Lasting Power Supply

Toush Smart Door Lock is powered by 4 AAAA Alkaline batteries and has a battery life of up to 12 months. If battery needs to be replaced, low battery alerts will be sent via Tough App, giving you ample time to get new ones.

Emergency Power Supply

In the event you could not change your batteries on time and the Toush Smart Door Lock batteries are completely drained, you can use your power bank as a temporary power source until you get your new batteries.

Installation Specifications

• Specifications

Model Number	T8401SDL

Important

Installation Tips

1. The Left/Right Touch Smart Door Lock has different installation method.
2. Please ensure you are using the correct Touch Smart Door Lock side for your door.
3. If you are unable to use Touch App or operate it with the keypad, please check, reinstall if necessary after turning the handle 90 degrees.
4. Knob Direction: Horizontal for left side handle and Vertical for right side handle. Otherwise the lock will become stuck.

WHAT IS TOUSH?

Discover a vast world of automation possibilities with Tough Smart Home Appliances!

Tough Inspired by Pensonic (Tough) are smart IoT appliances that are WiFi-enabled, and all the appliances in this series can be remotely controlled using the single Tough App.

Tough signifies touching, sensing, exploring and experiencing life in delightful ways. Tough smart IoT appliances are intuitive appliances that sense and respond to the user, and can be remotely controlled using touchscreen devices. These appliances connect, automate, quantify, optimise energy and resources, giving you more savings while fitting seamlessly into your lifestyle.

Through Tough smart appliances' different sensors such as temperature, air quality, location, vibration, humidity and other sensors, they interact with their environment, delivering useful data and practical recommendations to ensure a comfortable environment for you and your loved ones. Tough appliances are also voice control enabled and compatible with Google Assistant and Alexa for enhanced customer experience and comfort.

How does Töush elevate your lifestyle to the next level of enjoyment?

- Frees up time occupied in mundane chores to allow more quality moments with your family.
- Eliminates the need to micromanage your life. Helps you to monitor and manage your Töush appliance's status remotely.
- Allows flexibility in scheduling a variety of scenarios to enhance your lifestyle.
- Saves energy, time and countless other resources.
- Sends timely service updates to maintain your Töush appliances in top notch condition.
- Voice activated, works with Alexa and Google Assistant.
