AUTOMATION
IS LIFE

Manage from
Anywhere

Manage your Toush Smart Switch via your smart device from anywhere, at any time. Open and close your Toush Switch even when you're away. No more worries about lights or fans not turned off.

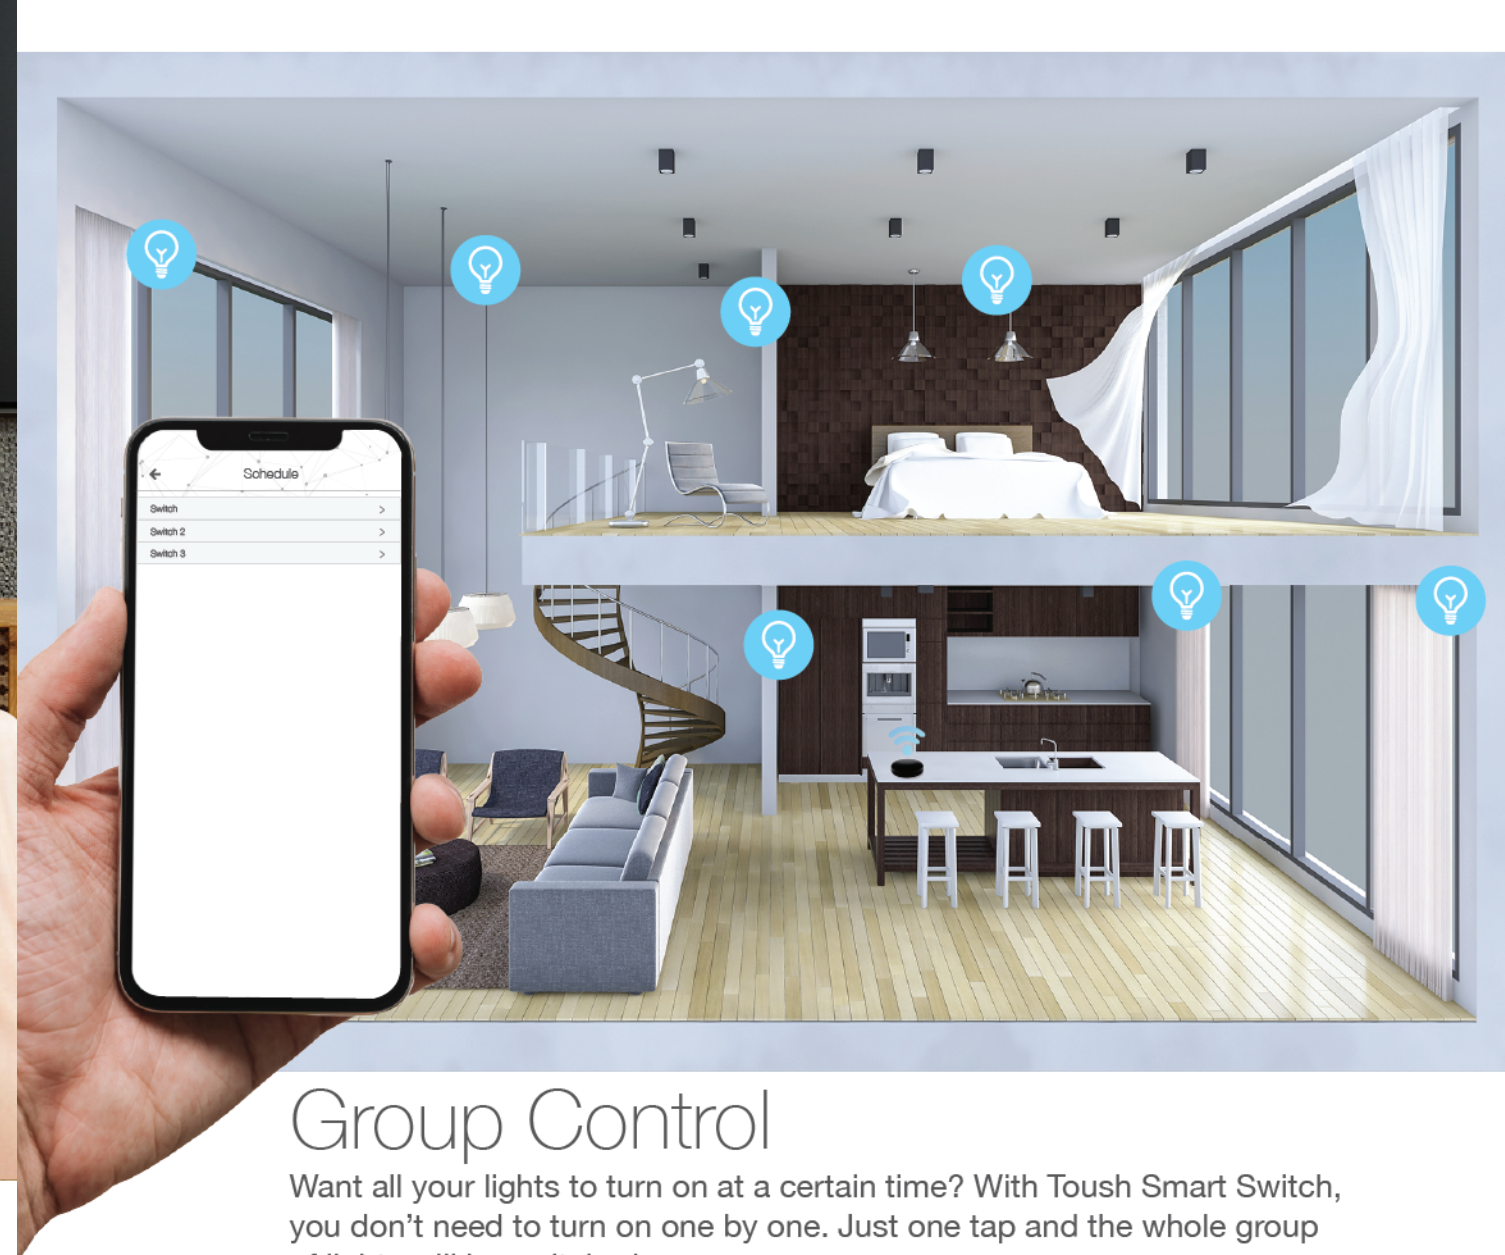

Flexible Scheduling

Customise your scheduling according to your family's needs. Turn on the lights when your child is reading and turn it off when it is bedtime. Schedule the switch to on the lights automatically in the early morning when it is dark and turn off when it is bright.

No Special Requirements

Just replace the traditional old switch with Tough Smart Switch and you can start using it right away. No need for any complicated set-ups such as hubs, messy work and wiring. This Smart Switch can be used with any WiFi router.

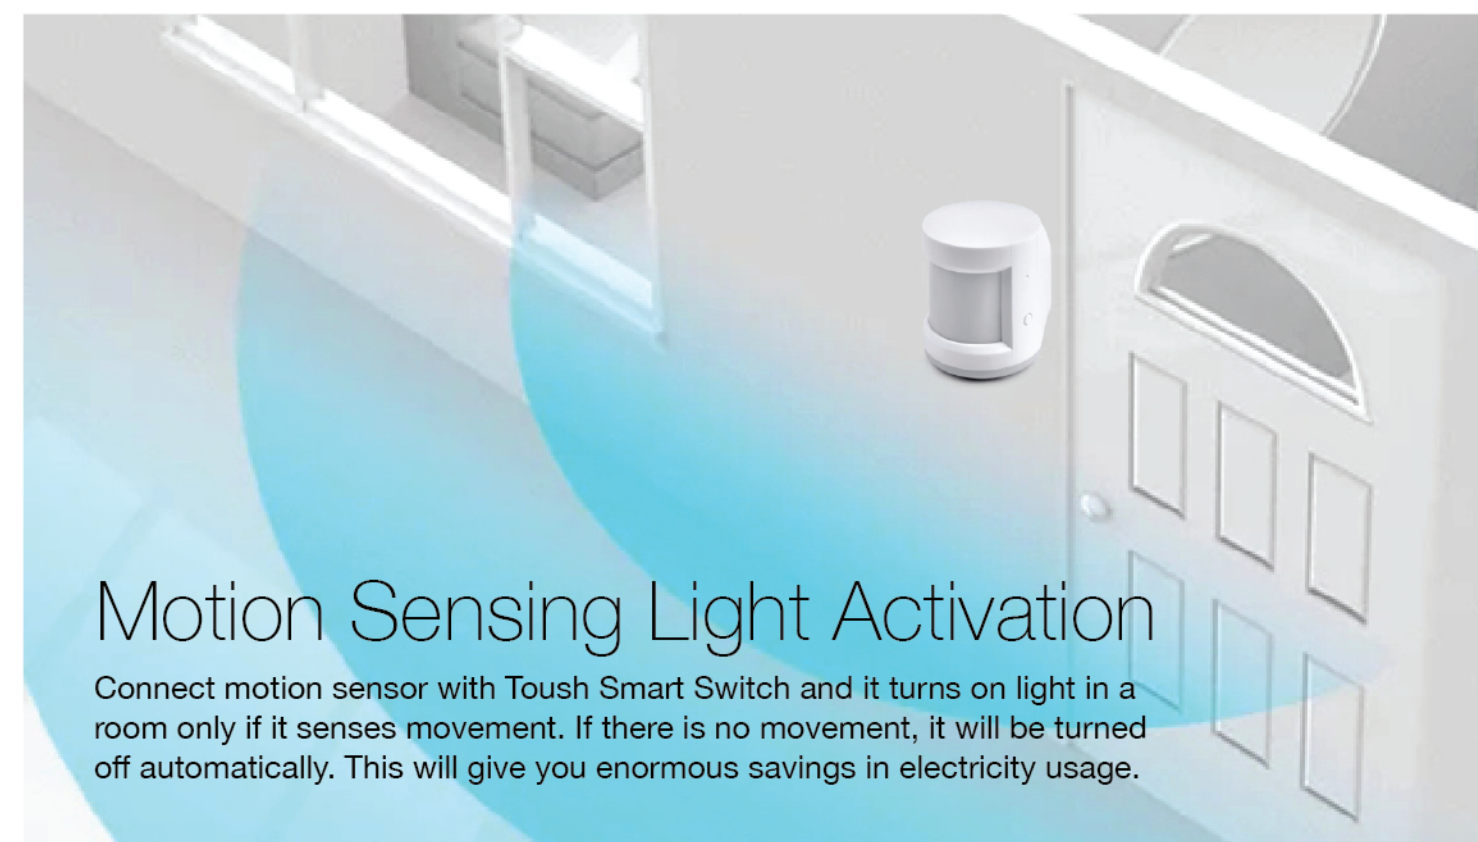

Group Control

Want all your lights to turn on at a certain time? With Tough Smart Switch, you don't need to turn on one by one. Just one tap and the whole group of lights will be switched on.

Easy Access Sharing

Once you have paired your Tough Smart Switch with Tough App, and your family member has Tough App on his/her smart device, you can easily share the Tough Smart Switch access with your family member.

Motion Sensing Light Activation

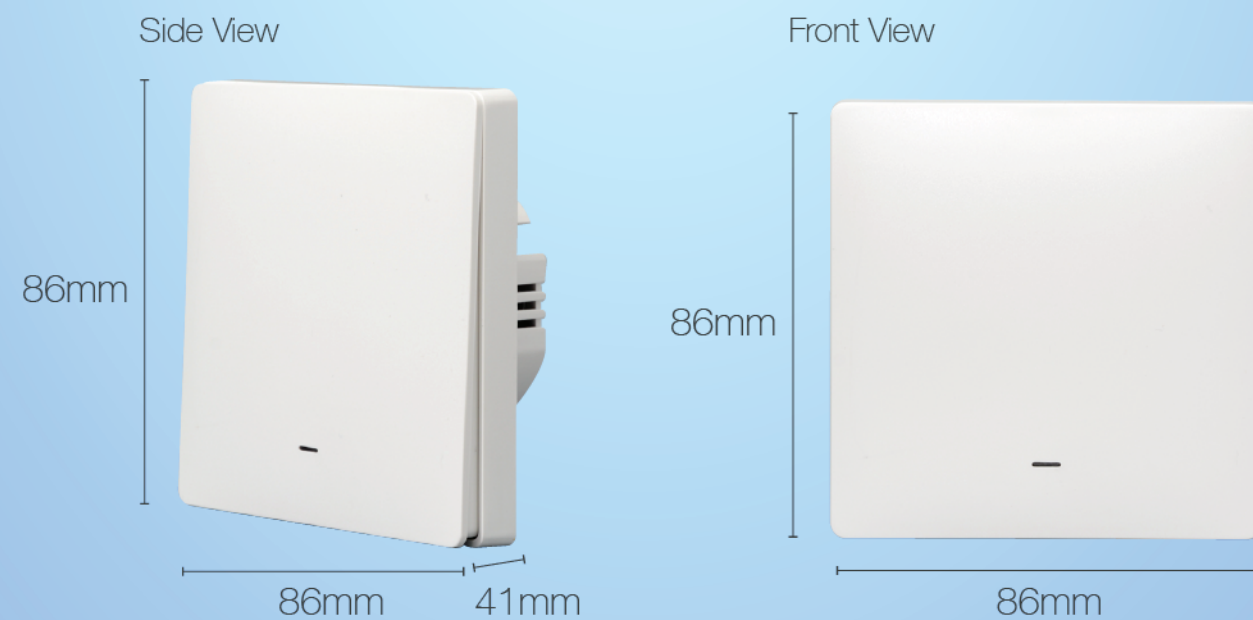

Connect motion sensor with Tough Smart Switch and it turns on light in a room only if it senses movement. If there is no movement, it will be turned off automatically. This will give you enormous savings in electricity usage.

Voice Enabled Convenience

If you have your hands full, Töush Smart Switch is conveniently voice enabled to support your busy lifestyle.

Installation

Toush Smart Switch does not require a Neutral Wire, therefore it is simple and easy to install. Shut off power supply and remove old switch.

Sort out the wires of the old switch. Attach the first wire you unscrew to the similar coloured wire of the new switch. Do the same for other wires as well.

WHAT IS TOUSH?

Discover a vast world of automation possibilities with Tough Smart Home Appliances!

Tough Inspired by Pensonic (Tough) are smart IoT appliances that are WiFi-enabled, and all the appliances in this series can be remotely controlled using the single Tough App.

Tough signifies touching, sensing, exploring and experiencing life in delightful ways. Tough smart IoT appliances are intuitive appliances that sense and respond to the user, and can be remotely controlled using touchscreen devices. These appliances connect, automate, quantify, optimise energy and resources, giving you more savings while fitting seamlessly into your lifestyle.

Through Tough smart appliances' different sensors such as temperature, air quality, location, vibration, humidity and other sensors, they interact with their environment, delivering useful data and practical recommendations to ensure a comfortable environment for you and your loved ones. Tough appliances are also voice control enabled and compatible with Google Assistant and Alexa for enhanced customer experience and comfort.

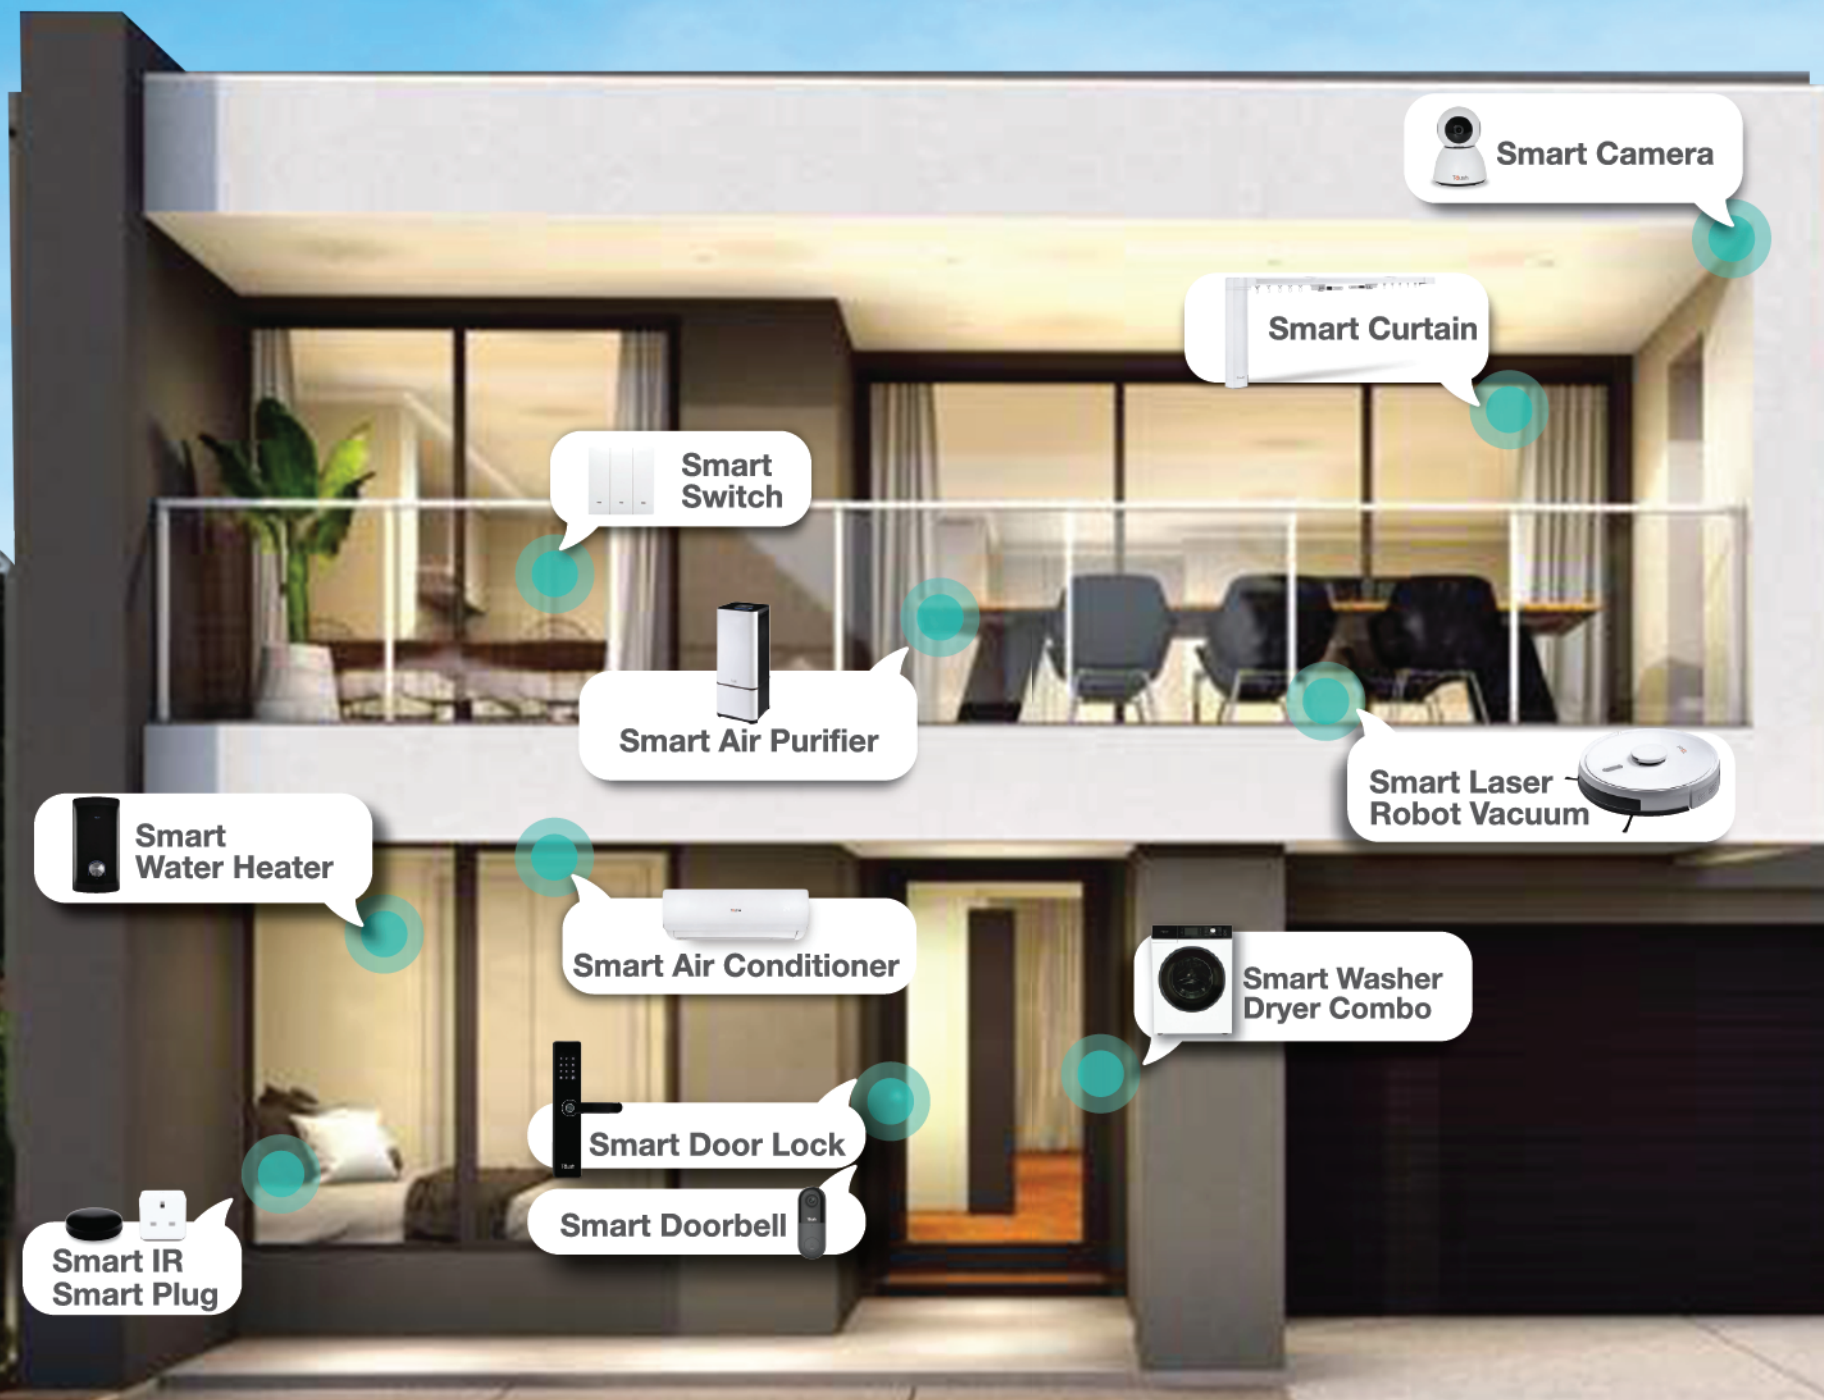

How does Tough elevate your lifestyle to the next level of enjoyment?

- Frees up time occupied in mundane chores to allow more quality moments with your family.
- Eliminates the need to micromanage your life. Helps you to monitor and manage your Tough appliance's status remotely.
- Allows flexibility in scheduling a variety of scenarios to enhance your lifestyle.
- Saves energy, time and countless other resources.
- Sends timely service updates to maintain your Tough appliances in top notch condition.
- Voice activated, works with Alexa and Google Assistant.

On top of energy saving and user friendly features, all Tough appliances are compliant with the necessary regulatory requirements.

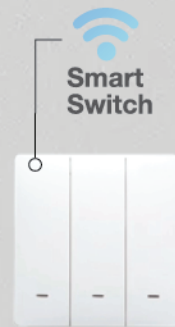

Get Tough App and learn new ways to simplify and enjoy your life.

Let Tough work its magic in your living space. Why settle for less when you can have more?
